## SOUTHERN WAR

### REDS MOBILISING TROOPS.

#### BANDITS BUSY.

Now that the war in the East River sector has been brought practically to a close, there remains only the work of rounding up those remnants of the anti-Red forces which have been scattered about while being pursued by the Red army. The Canton Government is now directing its attention to the Southern and West River sectors, which should now be renamed the South-West sector, as war operations carried on in either of the two sectors must necessarily bring into action forces which are operating in the other.

At a military council, composed of Wang Ching-wai, Ku Ying-fan, Wu Pui-tek, Loo Dek-ping, Wong Yeg-mow, Wu Tek-sing and others, held on the 4th inst., it was decided that Chu Pui-tek, as a Marshal directing operations in the south-west sector, is to mobilise his entire unit, now stationed in the Little North River districts, to the front, to be the main strength of the centre body of the Canton army now in the field. Besides, Loo Dek-ping is to mobilise four regiments of the Hunanese unit, to take up positions on the right wing, and Chan Ming-shu is to mobilise one division of the 4th Army Corps to operate on the left wing.

In addition to these plans, Wong Mow-kung, the acting Garrison Commandant, is to have 20,000 troops as reserves in readiness to take the field at any moment. The field of operation of the right wing is to be from Loting, in a south-westerly direction, including all districts west of Loting; its objective being Shun Yee; the right wing embraces, in a south-westerly direction, all districts south-east of Yan Ping and Yeung Chun, the objective being Yeung Kong. The centre and main body will cover all districts lying between Loting and Shun Yee on the west, and Hoiping, Yan Ping and Yeung Chun on the east, the objectives being Yeung Chun and Koochow.

**CAPTURE OF LING SHAN.**  
As regards Tang Poon-yan, since the retirement of his forces to Yeung Kong and Koochow, he has been in the defensive, and no new development is reported from that quarter. A report comes from Pak-hoi stating that what was at one time the Peoples' Army under Wong Ming-tong, in the early stages of the revolution, as well as roving bandits in the Yamechow and Limchow districts, have suddenly made a descent on Ling Shan and captured the city. It is said that these bandits, having resumed their old title of "Peoples' Army" are now co-operating with other sections of the Peoples' Army, and with the troops under Tang Kwok-leung, a brother of Tang Sing-shuen, who was shot by Tang Poon-yan, are advancing through Limchow. Their object is said to be to cross the straits and take possession of Hainan island while Tang Poon-yan is at the front.

### IN DAMASCUS NOW.

#### PEOPLE DAZED AND SILENT.

Damascus Nov. 8.  
The town itself is now quiet, but the situation is still serious. Organised bands around Damascus remain a menace. The people of the Muslim quarter appear to be dazed and sullen. North of Damascus the French jurisdiction outside the towns is practically non-existent. French reinforcements are hourly being sent to this line.

## TRADE LOAN.

### FIRST BATCH OF APPROVALS READY.

Upon enquiry to-day we learn that in connection with the Trade Loan the first batch of recommendations by the investigating Committee are now almost ready for submission to His Excellency the Governor for his formal sanction. Organisation in connection with the loan has proceeded steadily of late and a considerable proportion of the sum to be loaned out is now available in the Colony, satisfactory arrangements having been made. The big batch of applications which were received have been very carefully investigated by the Committee and, as stated above, it is expected that the first batch of recommendations to His Excellency the Governor, whose approval to all grants is necessary, will be ready for submission almost at once. Consideration of the remaining applications is still proceeding.

### MOTOR ACCIDENTS.

#### FOUR WEEK-END CASES.

While proceeding along Queen's Road East, on Saturday, a taxi-cab came into collision with a motor car which was emerging from Tai Yuen Street. Some damage was caused to the taxi.

In avoiding a boy who had got on to the roadway in front of the machine, on Saturday, a motor car swerved sharply against the left side of the road and ran into the wall of the Wanchai Market. One wheel was damaged.

An Indian pedestrian was knocked down and injured by a public car in Queen's Road yesterday. Although the man was somewhat severely injured, he refused to go to hospital, and was taken to his home.

A Chinese shopkeeper was admitted to the Government Civil Hospital yesterday with an injured foot, caused through being knocked down in Matheson Street by a motor car. In a report made to the police the victim says that the car did not stop after the accident.

### POCKET PICKED.

#### U. S. SEAMEN'S EXPERIENCE.

H. Lesser, a seaman from the U.S.S. Helena, charged a Chinese at the Central Magistracy to-day, with picking his pocket and stealing \$2.

In evidence, the sailor said that he was walking along Queen's Road in the direction of the Hongkong Hotel, when a Chinese bumped into him, and the nature of the bump was such as to give rise to a suspicion in his mind. He felt for the money which should have been in his breast pocket, but it was not there. He immediately chased and caught up with the accused after running a few yards. The money had been dropped on the ground, by the accused, during the pursuit. The fact being attested to by Mr. H. A. P. Meik, who gave corroborative evidence.

Mr. R. A. D. Forrest sentenced the accused to three months' hard labour.

### CHAUFFEUR FINED.

#### FAILURE TO REPORT ACCIDENT.

Whilst returning from the New Territories some little time ago, a Chinese motor-driver met with an accident whilst rounding the corner near the Laichikok Prison, with the result that the car overturned and a passenger was injured.

Immediately after the accident, the driver absconded and was not seen again until he was arrested in Pakhoi Street on Saturday. On appearing before Mr. E. W. Hamilton, at the Kowloon Magistracy this morning, the driver pleaded guilty to a charge of failing to report the accident and he was fined \$25, or in default of payment, to be imprisoned for 14 days.

## TOWN LOOTED.

### FIGHTING OVER THE BORDER.

#### REFUGEES HERE.

An attack by three hundred Cantonese military cadets on the Chinese town of Sa U Chung, just over the British border, a brief though bitter struggle and the subsequent wholesale looting of the place was reported in Hongkong yesterday.

The news was received through the agency of a number of Chinese members of the Maritimes Customs Service, who, robbed of practically all they possessed, fled the city and arrived in Hongkong with nothing but what they stood up in.

Sa U Chung has throughout all the recent trouble been violently anti-Red in its sentiments and this is not the first time that the Reds have occupied the place.

The Cadets arrived on the outskirts of the town towards the end of last week and quickly disarmed the garrison, which appears, however, to have put up a good fight against superior numbers.

Following their occupation of the city, the Cadets indulged in an orgy of looting, their officers apparently making no attempt to check their depredations. The Customs men appear to have been the subjects of specially bad treatment and those arriving in the Colony on Saturday seemed to be more or less content to have escaped with their lives.

### U. S. SAILOR FINED.

#### SEQUEL TO DISTURBANCE.

At the Central Magistracy to-day, L. A. Hisinger, a sailor from the U. S. S. Sacramento, was ordered to pay a fine of \$10 on charges of creating a disturbance and of damaging a cell in which he was detained at the No. 2 Police Station by ripping up the floor boards and breaking the lock of the gate.

The defendant's arrest was brought about through the receipt of a telephonic message at the Station, informing the Inspector on duty that a foreign seaman was creating a big noise in Tai Yuen Street, where he had invaded one of the houses. There was a large crowd of curious spectators gathered around the sailor when the police came on the scene to take him into custody. At the station, Hisinger was much annoyed, which fact he showed by rattling the gate of the cell, which caused the lock to break. Eventually peace was restored when an escort arrived from the warship to take him back on board.

### DE PINEDO FETED.

#### "TYPE OF NEW ITALIAN."

Rome, Nov. 8.  
In response to shouts by the crowd in the Piazza Colonna, Signor Mussolini, Com. de Pinedo and his mechanic Campanelli appeared on the balcony.  
Signor Mussolini in a speech described de Pinedo as a type of the new Italian generation which Fascism hoped to create.  
De Pinedo said that everywhere he had flown he had found evidence of admiration for Italy.  
The streets were illuminated in the evening, bands playing everywhere, and general rejoicing.

## OPEN LETTER.

### TO TRADE LOAN COMMITTEE.

We have received the following "Open Letter" addressed to the members of the Committee of the Trade Loan:

Gentlemen:—I offer no apology for addressing you anonymously through the medium of the Press, on the subject of the Trade Loan, for this subject vitally concerns the public, and I feel that you will be interested to hear about the hopes and expectations of the Chinese regarding this matter; about their anxieties and disappointments. But I do offer you my assurance that I am not being actuated by any ulterior motive: that I have no "axe to grind;" and that, personally, I am in no way interested in the Loan.

Now, what was the financial situation of the Colony prior to the announcement of the Loan? It is, I think, no exaggeration to say that it was grave. The Banks—doubtless for good reasons, which I do not profess to know—refused to lend one money, irrespective of the amount or quality of the securities offered. Creditors were pressing debtors for repayment. The vitality of credit was gone. Cash appeared to have completely vanished from the market. The Chinese were driven to appeal to the Government for assistance. A Chinese Delegation, headed by the Chinese members on the Legislative Council, waited on the Government, and the whole outlook was exhaustively and impressively stated by their spokesmen. Thanks to his masterly presentation of the case, and to the sympathy of Sir Edward Stubbs, the Government was, within the space of only a few days, able to announce that the Home Government would at once place at the disposal of the Colonial Government a sum not exceeding £3,000,000, which was the figure suggested by the Chinese Delegation.

The effect of this announcement was marvellous and instantaneous. The whole tone of the financial situation at once improved. Faith in the Colony immediately revived. All hoped that with £3,000,000 available to be lent on good securities, of which there were ample, the nightmare of enforced sales and wholesale insolvencies would exist no more. Surely the money would be forthcoming within one week? Two weeks? Three weeks? One month?

Then as the weeks passed and still not one dollar came out from the Loan to relieve the financial tension, people began to get uneasy, anxious and even incredulous. As usual, rumour succeeded rumour. The Government could lend only to finance business; not to ward off depreciative and ruinous sales. In any case, the ridiculous margins demanded by the Government would render the Loan commercially useless. Indeed, was the money really available at all?

And so, as the rumours increased, the situation gradually drifted back to the old days of despondency and financial stagnation. Gentlemen, believe me, every one appreciates that the task imposed upon you is staggering in its difficulty, and that the Government could not have found a body of men more qualified than yourselves to discharge this well-nigh superhuman task. I do not therefore presume to offer you any advice. But I hope it is not presumptuous on my part if I were to give utterance to what I believe to be the views generally held in the Colony concerning this matter.

I take it that the fundamental object of the Loan is, in the words of the Secretary of State for the Colonies, for the restoration of the financial credit of Hongkong. To enable owners of properties to pay off their incumbrances, and thus, to save such properties from being dumped into the existing dead market, does fulfil the precise object of the loan. And, similarly, to enable a business to be continued which otherwise will fall for lack of cash is with in such object. Indeed, the ramifications of finance are so wonderful and intricate that I suggest that every dollar lent out

## NAVAL FIGHT.

### CANTON SQUADRON DEFEATED.

#### 50 MARINES KILLED.

Reports are current in the Colony of an engagement said to have taken place yesterday in the Heungshan waterways between Northern gunboats and Canton craft under the command of Commander Semionoff, with the result that one of the latter was sunk, with the loss of fifty marines, and three others damaged.

It appears that the two light-draft gunboats Wong Chih and Wing Kien, belonging to the Northern fleet, were guarding the waters of Santak and Heungshan, whilst the Canton craft, described as the "West Sea Squadron," were on patrol duty from Kum Chook to Ying Go Chui, in the Heungshan district.

The Canton boats comprised some ten vessels, mostly revenue launches, the two largest being the Kong Tah and the Kong Ku. They were passing Tso Hai Chow (an islet between Heungshan and Shun Tak) where the Northern gunboats were on guard, when the Kong Tah, said to be the flagship, opened fire on the gunboats. The latter replied, and firing lasted for some time, in the course of which the launch Fai Wan is stated to have been sunk, fifty marines killed and three other launches more or less damaged, these latter including the Kong Tah.

After the engagement, the Canton squadron is stated to have fled back to Kum Chook.

## FRENCH FINANCES.

### FINANCE COMMITTEE OBJECTIONS.

Paris, Nov. 8.

According to *Le Journal* the Cartel members of the Finance Committee, with only one dissident, have unanimously rejected the Government's financial proposals.—*Reuter*.

#### FURTHER DISAGREEMENT.

Later.

The Finance Committee of the Chamber, by 17 votes to 14, has resolved urging the Government to avoid inflation and specifying various points on which they disagree with the Government's financial proposals. Though they subsequently turned down a Communist motion for the definite rejection of the proposals, the Radical and Socialists voted against in the Committee in order to emphasise their desire to make the Government's scheme the basis of a discussion.—*Reuter*.

The committee agreed to the necessity of creating a sinking fund, but raised serious objections regarding the scope of the fund and expressed a desire to hear M. Painleve before deciding. Hence a few days' further delay is inevitable.—*Reuter*.

## THE ITALIAN PLOT.

### POLICE ACTIVITY CONTINUES.

Rome, Nov. 8.

The police in practically the whole of Italy are engaged in domiciliary searches and arrests. They are reported to be securing evidence of a great revolutionary plot.

All those arrested in Genoa yesterday have been released, but the searches continue in Genoa and elsewhere. Numerous arrests have occurred in Leghorn following searches of fifty dwellings.

## OUR TRADE.

### OFFICIAL FIGURES REVEAL BIG DROP.

Hongkong's trade for the third quarter of this year was, according to a detailed comparison just issued by the Imports and Exports Office, very much below the trade in the corresponding quarters of 1924 and 1923, though neither of those years was thought to be good.

The principal articles are set out in table form, and under the heading of Imports it is to be noted that there was a tremendous falling off in rice, raw sugar, cotton yarn and woollens. Most of the specified articles in the list show reductions. As regards Exports, rice again shows the largest falling off as compared with the corresponding quarters of the two preceding years. Refined sugar was also tremendously down, and big drops have to be recorded in cotton yarn, woollen and cotton goods.

The quarter's imports totalled £11,122,880, as compared with £15,114,449 for the corresponding period of 1923, and £20,094,135 for the corresponding period of last year.

The quarter's exports totalled £7,573,826, as compared with £15,850,342 for the corresponding period of 1923, and £16,241,848 for the corresponding period of last year.

## DEBT ADMITTED.

### SUMMARY COURT JUDGMENT.

In the Summary Court this morning, before Mr. Justice Wood, a Chinese firm brought an action against another Chinese firm for the sum of \$341.41, being the balance due for goods sold and delivered. There were three defendants, Mr. E. S. C. Brookes acting on behalf of two, and Mr. D. McCallum appearing for the plaintiffs. Only one of the defendants appeared.

Mr. McCallum explained that there had been disputes among the partners of the defendant firm and he believed an action had been instituted in Original Jurisdiction as between the partners. The goods had been ordered and delivered before any question as to partnership disagreements arose.

The defendant who appeared said he was a partner in the firm, and admitted the debt.

Judgment was given against all the defendants.

## NOISY CHICKEN.

### STORY OF A BUNDLE.

A Chinese carrying a bundle of what appeared to be clothing, wrapped up in a handkerchief, came under the watchful eye of a lokong in Wanchai yesterday. As he failed to get a satisfactory explanation from the man as to the nature of the bundle, the constable gave it a squeeze, and was startled to hear a clucking sound issuing from the depths of the bundle. He thereupon undid it, to discover a live chicken within.

Questioned by the Magistrate to-day, the prisoner said he had paid for the chicken, but on the Inspector stating that not a cent was found on the man after he had been taken into custody, Mr. R. E. Lindsell registered a conviction for unlawful possession and passed sentence of fourteen days' hard labour.

## EXPORTING MONEY.

### CHINESE WOMAN FINED.

A well-dressed Chinese woman, the wife of a shopkeeper of Samarang, was fined \$50 to-day at the Magistracy for attempting to export money to Macao. She was arrested yesterday at the Macao wharf prior to boarding the morning steamer, and when questioned in regard to a sum of \$500 found on her, admitted that she was taking the money to Macao, but being only a newcomer to the Colony, she was ignorant of the local regulations. Mr. R. E. Lindsell ordered that the fine was to be paid.

## \$5,200 FINE.

### MARINE CONVICTION QUASHED.

#### TO-DAY'S JUDGMENT

A three months' old conviction registered by Lieut. Comdr. G. F. Hole, the Marine Magistrate, against the Japanese master of the Chinese s.s. Kia Lee, and on which he imposed a fine of \$5,200, the maximum penalty, was quashed this morning when the Court of Appeal (Mr. Justice Compertz and Mr. Justice Wood) delivered judgment.

The appeal against the conviction was conducted by Mr. F. C. Jenkin; and Sir Henry Pollock, K.C., appeared for the respondent.

The judgment was read by Mr. Justice Wood, who outlined the facts, stating that it was agreed that the vessel was on her way with 97 passengers from Shanghai to Whampoa and that she anchored in the waters of the Colony on the right of Aug. 9th-10th, for the purpose of taking a pilot on board for the further stage of the voyage. She did so and paid light dues, and later was boarded and detained. After a case, with which the Court were not concerned, was heard, the ship again proceeded and was again detained with 52 of her original passengers, the remainder having been put ashore on the orders of the Marine Magistrate.

On the 12th, the master was charged with unlawfully carrying 52 passengers on the Kia Lee without having a passenger certificate in the waters of the Colony. The absence of the certificate was admitted and on the facts set out he was convicted.

The question arising for decision was whether the Kia Lee was a passenger ship within the meaning of the Ordinance, where a passenger ship was defined as "every ship exceeding 60 tons register carrying passengers from, to or between places in the waters of the Colony." If the vessel came within that definition the conviction must be confirmed but otherwise it must be reversed.

It was contended on behalf of the respondent that the widest possible interpretation should be adopted. The learned Attorney General had argued that the words were correctly paraphrased in the charge, as allowed to include any carrying of passengers in the waters of the Colony for however short a distance and without reference to any voyage or destination.

For the appellant it was claimed that the language of the section could only be referable to the terminal points of the voyage.

This latter, said Mr. Wood, was, in the Court's opinion, the right construction. If the legislators had intended to impose the onerous requirements of the section upon all ships carrying passengers in the waters of the Colony, apt words were available which would have expressed the intention without ambiguity.

His Honour the acting Chief Justice, concurred.

## MARINE COURT.

### CAPTAIN FINED \$100.

Capt. C. H. Jones, master of the s.s. Liangchow, was fined \$100 at the Marine Court this morning for (1) failing to proceed to quarantine anchorage having come from an infected port, and (2) allowing 860 passengers to land without the customary medical examination. The defendant pleaded that his owners ordered him to go to a

### RACE MEETING.

#### SATURDAY'S EVENTS.

The seventh extra race meeting in connection with the Jockey Club on Saturday was marked by a rather small attendance, whilst the fields were by no means large. His Excellency the Governor, Hon. Mr. Cecil Clementi, was in attendance, being accompanied by Mr. G. R. Sayer and Capt. Swinton.

A feature of the afternoon was the Fifth Aggregate Stakes, in which Local Option was the only pony to come out. The cash sweep prize of \$7,380 therefore went to the luck holder of the ticket on this pony. The afternoon's results were:

The seventh extra race meeting was held at Happy Valley on Saturday afternoon in glorious weather, but there was a poor attendance, neither the stands nor the enclosure being as well filled as is usually the case, a state of affairs which reflected in the Cash Sweeps returns.

His Excellency the Governor, the Hon. Mr. Cecil Clementi, C.M.G., arrived shortly before the third event, and remained an interested spectator until the programme was finished. He was accompanied by Mr. G. R. Sayer and Captain Swinton, A.D.C., and was met on arrival by Messrs. R. M. Dyer, M. T. Johnson and H. Birkett, of the Jockey Club Stewards.

Fields were poor and in only one race were there eight runners. With the course on the hard side, but in good condition, it was expected that fast times would be made, but the expectation was not fulfilled.

The outstanding feature of the day's sport was the exhibition given by Local Option; as the solitary runner for the Fifth Aggregate Stakes, all others having refused, leaving second and third place money untouched. Grey Morn has already won the Aggregate Cup, with 12 marks, so that in any event, it would have been an empty victory, although possibly productive of some interesting betting.

Mr. Pollock rode three winners, including the walk-over by Local Option, and Mr. da Rosa two. Mr. Reidy and Mr. Davies had one each. Mr. Roda owned two of the winning mounts, both these being "Parrots," this being the only double of the afternoon.

There were few upsets of form and in only two cases did the winners pay good prices, these being \$54.50 for Arabian Parrot and \$34.70 for Spotted Sand in the last race, where the betting was phenomenally close among three ponies, the favourite being beaten out of a place.

The band of the 2nd Battalion East Surrey Regiment was present and rendered musical selections throughout the afternoon.

#### The Racing.

The afternoon's proceedings opened with the five furlong sprint for the Shaikwan Stakes, in which there was a field of five, with Persian Parrot a firm favourite and Solly next in the betting. Off at the first attempt, Solly led the field with the Parrot last, until the village, where the latter moved up quickly and came into the straight a length ahead of Solly and Hailsham, Uncle Tam having dropped well back. A fine run up the straight saw Persian Parrot come home with a comfortable two lengths and a half to spare from Solly, with Hailsham a good third.

The Shek-O Handicap "B" attracted eight runners, with Lady Severn's Jambu favourite. From a somewhat ragged start, Jambu jumped into the lead from the outside position and when passing the stands, held a two

lengths lead, closely followed by Valiant, with May Leaf and Two Pairs level and Mowgli well in the rear.

At the football stands, Grey Streak was improving with May Leaf still well to the fore. There was little change to the village except that the field closed up and both Valiant and Jambu had fallen back with Grey Streak reaching up to the front, and May Leaf temporarily leading.

Into the straight, Whips came out, with Two Pairs, May Leaf, Grey Streak, with the latter having made her way from the ruck on the rails, running "under a blanket." In the last 50 yards, Grey Streak came ahead with a rush, and beat Nugget by a length, Two Pairs beating May Leaf close in for third place by a neck.

The Shek-O Handicap "A" Class was a walk-over for Saligia, which, in the absence of Grey Morn, was made a strong favourite. Jumping into the lead right at the start, Saligia went off to lead by many lengths from Chicago, followed by Gyp and Rothsay.

Messrs. Dyer and Beith's pony improved his position going up the incline, getting in front of both Chicago and Gyp, and lessening the distance from the leader. Rothsay, however, soon fell back again, and Saligia came home in a canter, an easy winner. Chicago walked in second and Rothsay came on again to beat Gyp for third place money.

#### A Walk-over.

In the Fifth Aggregate Stakes, Local Option was without competitors and galloped round alone. The pony was in excellent condition and gave a splendid display which justified the discretion of the owners of other entries. The time was good, as the race was run, the last quarter being spun out in a burst in 28 and 3/5 seconds.

There were six entries for the Stanley Plate, including the well backed Blotting Paper, ridden by Lieut. Commr. Thompson, and King of the Plains. The latter jumped ahead at the start but was soon displaced by Arabian Parrot, with Nugget running last. At the Rock, the Parrot was holding a lead of two lengths with both Kings close up and Blotting Paper making up ground. The position was unchanged into the straight, when the Parrot held her place against a strong challenge by Blotting Paper, who dropped back, beaten at the distance post to gain second place from King of the Plains by half a length.

Loch Rannoch was favourite in the race for Novices, the Shatin Plate, over the mile and a quarter, and did not disappoint his many supporters. Of the five starters, he lay fourth until the straight and then came along with a strong burst, beating Beldorney Star and challenging Persian Parrot, which had led all the way round in company with May Leaf, at the distance post. A fine race in the last hundred yards saw Loch Rannoch come away to win from the Parrot, with Beldorney Star third.

Five ponies were saddled for the Shatin Handicap, with Uncle Chick the most favoured, although there were but 50 points difference split amongst three. Beauty Dahlia and Spotted Sand ran away from the field and at the football stands were 15 lengths in the lead, with Uncle Chick trailing off. At the Rock, the field closed up a little, but fell back round the bend, the Beauty and Spotted Sand maintaining their places with ease. These entered the straight with the race between them and fought out the finish on the run in, Spotted Sand gaining the victory with a game effort

by a length and a half, Grey Knight coming in third many lengths behind and the favourite finishing fourth.

### MILITARY BOXING.

#### EAST YORKSHIRES v. EAST SURREYS.

A tournament arranged at short notice took place in the open air ring at the Murray Barracks on Friday night, between regimental teams from the 1st Battalion East Yorkshires and the 1st Battalion East Surrey Regiment, which resulted in a win for the latter by four contests to three. The transport carrying the Yorkshires only arrived in port during the morning, after being 25 days at sea, and the Yorkshires are to be commended on the excellent show put up under adverse conditions.

H. E. the Governor accompanied by his A.D.C., Captain G. E. Swinton, M.C., was present and remained until the conclusion of the Tournament, afterwards presenting the medals to the contestants. Colonel Russell-Brown, the A. G. O. C. the Forces in China, also attended. Commander Broadley, R. N. referred and the two judges were Officers of the R. N.

#### Featherweights.

Brisbane, Nov. 8.

The Government has rescinded the suspension of the railwaymen who refused to handle coal for a "black" ship at Bowen. In turn the railwaymen withdraw their threat to declare certain sections of the railway system "black," and promise henceforth to obey the Railway Commissioner's instructions.

### OBITUARY.

#### GENERAL CERVEIRA DE ALBUQUERQUE.

Portuguese Consul-General's Bereavement.

There passed away in Lisbon on the 2nd inst., at the ripe age of 73 years, General Cerveira de Albuquerque, father of the Consul-General for Portugal in Hongkong. The sad news was received in the Colony by telegram.

During his lifetime the deceased held, with distinction, several positions of prominence under the Portuguese Government in Lisbon. Twice he held the portfolio of Minister for the Colonies, viz., in 1912 and 1914. After our oldest Ally had thrown in her lot with the Allied Powers in the Great War, General Albuquerque was appointed Minister of War in 1916. In the following year he held the chief Cabinet position as Minister of Supplies. Owing to his great knowledge of military strategy over the long and continuous period of twenty years, from 1894 to 1914, the deceased was Professor of the Army College in Lisbon. At the time of his death he was Secretary-General to the Minister for the Colonies. In his last capacity he died gloriously in action, and the news of his death, which was received in Hongkong on Saturday morning, came as a shock to his son, the Consul-General for Portugal, and his large circle of friends both in the Portuguese and the British and foreign communities by whom Senhor Albuquerque's Castro is well-known and held in much respect. Senhor Albuquerque is dean of the Consular Corps in Hongkong.

Naturally with one who has held on several occasions the position of a Cabinet Minister under successive Governments, and in particular that of a Permanent Under-Secretary of State for the Colonies, the late General Albuquerque was thoroughly au fait with all that concerned the widely-scattered colonies comprising Portugal's dominions, beyond the seas. Macao, as is to be expected, had a special interest for the deceased Colonial Secretary-General, and during the present troublous times South China is passing through. Macao came often and largely within the purview of his official duties, as disclosed in despatches received. These communications invariably displayed a broadness of vision and a soundness of judgment, acquired with the ripe experience of years, and yet not antiquated so as to fail in their adaptability to altered conditions and changed times. The maintenance of harmonious relations with neighbouring colonies and countries has been the keynote of the success of General Albuquerque's foreign policy.

With the Portuguese Consul, his wife and daughter sincere sympathy will be felt in their bereavement.

Mrs. M. J. Cooper.

The many friends of Mrs. M. J. Cooper of No. 92 Nathan Road, Kowloon, will learn with regret of her death, which took place at her residence on Saturday, after spending 26 years in Hongkong and Kowloon.

For some time past Mrs. Cooper's health has been failing. She died in her 51st year, and is survived by her husband, Mr. W. J. Cooper, and two sons, Messrs. William and Kenneth Mason, and a daughter, Miss Marjorie Mason, to whom the sympathy of all their friends will be extended.

There was a large attendance at the funeral, which took place yesterday afternoon.

### THE NORTHERN WAR.

#### PRESS GANGS BUSY IN SHANGHAI AND TSINGTAO.

#### Ingenious Methods.

Peking, Nov. 7.

Press gangs are reported to be operating in every part of the war region. Reuter's Tsingtao correspondent gives instances of Fengtien impressment of rich and other unfortunates, but Reuter's Shanghai correspondent says the Chekiang recruiting officers are believed to be able to claim having broken a record by a "haul" they made on Thursday night, when nearly five hundred poorer class men, intent on gazing at a huge fire in the Chinese city, were suddenly pounced upon and taken, bound and waiting appallingly.

The authorities are said to have adopted an effective method to secure coolies. Plain clothes officers are detailed to raise an alarm commotion in order to attract the unemployed to a particular spot. The crowd soon grows, and without warning, the officers dive amongst the on-lookers and secure their victims.

Reuter. Peking, November 8. The report that the Manchurian Government is willing to withdraw from the Pao-tung and Tientsin area in order to appease Feng Yushiang is denied. The government, according to Li Changlin, returned this morning with reports that Li Changlin is unwilling to agree to the inspection of his military preparations as suggested by the peace-makers. Reuter.

#### GRAND CARNIVAL DANCE.

There was a record attendance at the Grand Carnival Dance last Saturday evening. Unfortunately many of the members were disappointed at the non-attendance of the Brunswick orchestra but the navy stepped into the breach with the H.M.S. Tritonia orchestra which hurried from another engagement and played from 12 to 2. It is hoped to repeat the dance at an early date with the attendance of the same band whose excellent qualities are well known.

The lighting and decoration were under the management of Messrs. Jacobs Driscoll and Kelly and the prizes were distributed by Mr. Geo. Sheriff, P.G.P.

The prizes were awarded as follows:

1st Ladies: Mrs. Van, as Music.  
1st Gents: Mr. J. Dear, as a Coder.  
2nd Ladies: Mrs. Carter, as Tennis.  
2nd Gents: Mr. Spredbury, as Scarecrow.  
Spot waltzes: Mrs. Carter, Mr. Dowling, Mrs. Page and Mr. Hill.

#### THE SALT INSPECTORATE.

SIR ERNEST WILTON TO RELINQUISH.

Peking, Nov. 7.

With reference to a report from a Chinese source, published in this morning's papers, to the effect that Sir Ernest Wilton has resigned from the Salt Gabelle, Reuter is authoritatively informed that Sir Ernest proposes to go to England at the expiration of his agreement with the Chinese Government at the beginning of next year. Reuter.

### PHILIPPINES AFFAIRS.

#### PROPOSED PLEBISCITE ON INDEPENDENCE ISSUE.

#### Move and Counter Move.

Manila, Nov. 7.

The Senate has unanimously passed a Bill authorising a plebiscite on the independence question. The House is expected to pass it also.

The Governor General has made no statement, but is believed he will veto the Bill on the grounds that only the sovereign power can order it. Failing that, W. R. Wright, Insular Auditor, will probably refuse to authorise the use of Government funds to hold the plebiscite.

Mr. Manuel Quezon realized this, but is using the Bill for publicity purposes here, and states that if it is vetoed he can call Governor General Wood imperialistic.

The Governor has signed the Appropriation Bill, after a compromise with the Legislature, retaining thirteen American experts in the Bureau, and ousting six after six months. The Legislature desired to oust all.

Vicente Carmona, Insular Treasurer, and nine others have been appointed of the gambling charge against them by a Philippine judge. Reuter.

#### CHARITY BAZAAR.

#### ST. STEPHEN'S GIRLS' EFFORT.

The excellent work of the girls of St. Stephen's College was exhibited in the Kwok Siu-lan Hall, where a number of parents and friends of the scholars assembled for the annual bazaar.

The function was declared open by Mrs. Duppuy (wife of the Bishop of Victoria), who was introduced by Mr. W. W. Hornell, C. I. E. (Vice-Chancellor of the Hongkong University). Mr. Hornell wished the organisers every success in their efforts of collecting for charity, and he spoke of the excellent work which was being done by the various educational institutions of the Colony in preparing students for the University.

Mrs. Duppuy said that the money raised by the bazaar was not for the M. C. L., but other charities. She referred to work which she had seen in the interior of China in hospitals, leper settlements and schools.

On the platform with Mrs. Duppuy were also the Headmistress of the College, Miss Middleton Smith, the Hon. Mr. H. T. Cressy and Mrs. Cressy (who presented special prizes for doll making), the Right Rev. C. R. Duppuy, Bishop of Victoria, Mr. Hornell and Miss E. S. Atkins.

The stalls had all been arranged by the several forms of the College and were in charge of the students with the following superintending: Miss Middleton Smith, Miss E. S. Atkins, Miss Hazland, Miss Wise, Miss Pope, Miss Vincent, Mrs. Pok, Miss Cheung, Miss Chenally, and Miss Kwok.

## ITALIAN OPERA.

## THE KOWLOON SEASON.

The Italian Grand Opera Com-  
pany opened their Kowloon  
season at the Star Theatre on  
Saturday evening with "Il  
Trovatore," before a fair-sized  
audience. This piece suffers from  
the number of intervals neces-  
sary, which are not improved by  
the very audible bustle during  
scene-shifting operations, but it  
makes up in the beauty of its  
music and its dramatic interest  
for these drawbacks to local  
theatre-goers who persevere have  
to remain in the house during the  
temporary fall of the curtain. As  
presented on Saturday night, "Il  
Trovatore" was on the whole  
well acted, and the singing was  
generally of a high standard, but  
it was unfortunately necessary to  
call upon the services of a  
prompter in one part. The  
closing scene was of a very high  
standard, the principals ex-  
celling themselves and being re-  
peatedly applauded.

At yesterday's matinee per-  
formance the two pieces were the  
over-popular "Cavalleria Rusti-  
cana" and "Il Pagliacci," whilst  
last night "Mignon" was very  
pleasingly presented. The re-  
maining performances of the  
season are "Faust," "Tosca,"  
and "Madame Butterfly."

## BOILS MEAN BAD BLOOD.

## Dr. Williams' Pink Pills Banish

Boils By Purifying and

Enriching The Blood.

When boils, or other eruptions,  
break out on your body it is a  
sure sign that your blood is in  
bad condition. They will con-  
tinue to trouble you until the  
blood is made pure and good. As  
a remedy in many forms of skin  
disorder Dr. Williams' Pink Pills  
have given splendid results, the  
reason being that these Pills act  
directly on the blood stream,  
purifying it, enriching it, and  
rapidly increasing the number of  
health-giving, strength-building,  
red corpuscles.

"For almost a year," says Mr.  
Charles Hedge, of South Wood-  
sloe, Ontario, Canada, "I was a  
great sufferer from boils. I tried  
several remedies but they did not  
help me and I was becoming thin  
and looked worn out. I was advised  
to take Dr. Williams' Pink Pills  
and did so with the result that  
the boils disappeared and I have  
not been troubled with them since.  
In other ways, too, I feel better."

Acting through the blood Dr.  
Williams' Pink Pills are also a  
proved remedy for nerve troubles,  
digestive weakness, neuralgia,  
rheumatism, and the special ail-  
ments of ladies. Your chemist  
supplies them, or post free, \$1.50  
per bottle, \$8 for 6 bottles, from  
the Dr. Williams' Medicine Co.,  
P.O. Box 2611, Little Rock, Ark., U.S.A.

DEATH OF MR.  
W. H. GILL.WELL-KNOWN KOWLOON  
RESIDENT.

It is with much regret that  
we have to record the death of  
Mr. W. Harris Gill, son of the  
late Mr. Thomas Gill, of Barba-  
does, West Indies, which took  
place at his residence at 10, Hum-  
phreys Buildings, Kowloon, on  
Saturday, at the age of 72 years.

The deceased gentleman, who  
had been a resident of Kowloon  
for several years, was formerly  
connected with the sugar indus-  
try in the West Indies and in  
Formosa, and during his latter  
years he was on the staff of the  
Taikoo Sugar Refining Company.  
He was of a quite and retiring  
disposition, and a man of sterling  
character, being a regular attend-  
ant at St. Andrew's Church,  
Kowloon, until latterly, when he  
was laid aside by sickness. He  
leaves a widow and two  
daughters, with whom the sym-  
pathy of a wide circle of friends  
is felt in their bereavement.

The funeral took place at  
Happy Valley yesterday morning,  
being attended by many friends,  
the Rev. G. R. Lindsay, Vicar of  
St. Andrew's Church, officiating.  
There were many floral tributes,  
testifying to the esteem in which  
the deceased gentleman was held.

the Soviet Embassy to celebrate  
the anniversary of the Bolshevik  
revolution was attended by eight  
hundred, including Heren Luther  
and Stresemann, Lord D' Abernethy,  
and M. Chicherin. A large por-  
trait of Lenin was conspicuously  
displayed. An orchestra played  
the "International" several times.  
Such recognition of Soviet power  
in Berlin is unparalleled.—*Reuter.*

## OPEN LETTER.

(Continued from Page 1.)

—irrespective of the primary ob-  
ject of the loan—provided that  
the borrower is a permanent resi-  
dent in the Colony—must be con-  
clusive to restoring credit, since  
no one will pay 8% on the amount  
borrowed unless it can be applied  
for purposes which will bring in  
an equivalent or higher return.

In the consideration of each  
application I submit the sole  
test to be applied is:—Does the  
loan tend to maintain or restore  
credit? If it does, then I appeal  
to you to treat the application,  
not in any niggardly spirit, but  
with sympathy and even generos-  
ity, bearing in mind that the  
present value of securities can  
not depreciate much further  
unless indeed—impossible  
thought!—Hongkong itself were  
to go to the dogs.

And above all, Gentlemen, I  
appeal to you to act quickly. I  
think it was Lord Reading who  
once said that Justice Delayed is  
Justice Denied. I suggest that  
this aphorism equally applies to  
financial assistance. Financial  
credit, through delay, may be  
beyond resuscitation. I know that  
the magnitude of your labours has  
entailed, and will entail, hours and  
days of hard dreary work. And  
yet . . . well, may I quote  
from James Legg's "Chinese  
Classics," in the volume of "The  
Works of Mencius," (Book III  
Part I, Chapter IV):—

"In the time of Yao when  
the world had not yet been  
perfectly reduced to order, the  
vast waters flowing out of their  
channels, made a universal  
inundation . . . . .  
Yu separated the nine streams,  
cleared the courses of the Tsai  
and Ta, and led them all to  
the sea . . . . . During that  
time, Yu was 8 years away  
from his home, and though he  
thrice passed the door of it,  
he did not enter . . . . ."

Your work, if less arduous,  
is also very pressing: the commercial  
community is eagerly, impatiently  
waiting for the money. In the  
interest of the Community, may you  
emulate Yu's spirit!

I am, your obedient servant.

## DANCING DISPLAY.

BIG SUCCESS AT  
THEATRE ROYAL.

A capital dancing exhibition  
was given by the pupils of Miss  
Violet Capell at the Theatre  
Royal on Saturday evening, in  
aid of the London Hospital. This  
year's display has been hampered  
in several ways, and it is to the  
credit of Miss Capell and her  
pupils that the dancing on Satur-  
day reached such a very high  
standard. There was a large  
audience, and to judge from the  
ovations given they thoroughly  
enjoyed themselves.

The programme was long and  
well sustained. Considerable  
thought had been given to the  
various items, to keep the audi-  
ence continually interested. This  
object was attained, and there  
was not a dull moment in the  
whole of the programme.

The younger children took the  
boards first in the ensemble  
"Pixie's Dance" (by the babies).  
There were some very tiny toddlers  
indeed, and if they did not dance  
as well as the older girls, they  
added a charming touch to the  
scene. Irene Deacon gave a  
pleasing interpretation of "Un  
Petite Morceau de Ballet." This  
was followed by a more vigorous  
jazz dance which went well. Six  
girls took part and all showed  
evidence of good training. Betty  
Williams secured a hearty ovation  
after her "graceful dance", and  
well deserved it because she danced  
remotely well. As the name  
denotes, the dance is a graceful  
one, and Miss Williams danced it  
in a really charming manner.

A solo "Baccante" was performed  
by Barbara Walker, and here  
again careful training was ob-  
vious. It is not one of the easiest  
dances, requiring much expression  
both of figure and of face. Miss  
Walker, however, showed herself  
to be thoroughly acquainted with  
it, and carried it off with ex-  
ceptional ability.

A dainty Welsh dance taken  
part in by twelve girls, all dressed  
in picturesque costume, was  
another success. After this  
Winnie Henderson cleverly  
rendered "Rendezvous." One of  
the most popular turns of the first  
part of the programme was  
"Felix Keeps on Walking" by  
Muriel Taylor. Dressed as Felix  
she created much fun in an  
amusing and original dance. An  
ensemble "Crossword Puzzle,"  
was a splendid scene. The girls  
taking part came on in small  
groups, and each of them had a  
letter on the front of her dress.  
As they arranged themselves, the  
letters read "V.C.D.A. Assistants  
London Hospital." At the con-  
clusion of the first half of the  
programme, Miss Capell herself  
delighted the audience with a  
solo. Her dance was most grace-  
ful and drew forth loud applause.

In the second half of the pro-  
gramme, Nora McKimm scored a  
success with a solo "Pipes of  
Spring," and a National Hornpipe  
which followed was well rendered.  
Dainty Allison Mackenzie  
was a distinct success in a "par-  
asol dance," and this was obvious-  
ly one of the best turns of the  
evening. Patsy Nicol capably  
danced "Out of the Inkwell." The  
concluding scene was a "Butter-  
fly Ballet," in which all the  
dancers took part. This was a  
gorgeous display both of dancing  
and of colour and provided a fit-  
ting ending to a splendid display.  
Miss Violet Capell danced another  
solo, at the finish.

### A COMING CRISIS.

Although we are in a pretty bad way here, so far as our trade goes, we do know that if only the Chinese of South China would stop fighting and settle down once more to the affairs of ordinary everyday life we should be quite all right again. But there is a trade and industrial crisis in Britain just now that cannot be quite so simply stated or solved. We have been so busy with our own little troubles that we haven't given as much thought and attention as we might have done, with profit, to the undoubtedly grave industrial crisis towards which Britain is moving. One cannot pick up any of the leading Home journals without reading of labour disputes, of unemployment, of wages reductions, and the like, and there is a growing realisation that matters are fast moving toward a general crisis. The recent activities of Communists and the arrest of their leaders for incitement to revolt shows just a little of what is going on. There are practically one and a half million registered unemployed in receipt of the "dole," and the drain on the national exchequer caused by this and the payment of huge subsidies (such as to the coal trade) has given rise to high rates and much complaint. Manufacturers are undoubtedly trying to cut down wages, workers are finding it more and more difficult to make ends meet, exports are decreasing and imports increasing. The general temper is very uncertain and even if the winter is

grimly struggled through there is assuredly going to be trouble in the spring when the coal industry is due to have its agreements renewed and revised. Of course, there are many causes which have led up to this state of affairs. First and foremost is the fact that Britain has lost very large markets in the war's aftermath of depression, and that whereas she used to sell for more than she bought she is now selling for less than she is compelled to buy. Industry is idle more or less because the cost of its products is higher than can be afforded by those who should be buying them. Britain is so highly industrialised that a trade slump (especially when accompanied by high prices) hits her harder than any other country in the world. And that is where there is very just cause to question the wisdom of Britain's early return to the gold standard because it has helped to make the price of British goods in foreign countries exorbitantly high. How can British manufacturers quote successfully against French manufacturers when they have to pay a workman, say 25 per week which is equivalent to nearly 600 francs? American writers are saying that British wages are low, and so they might be when compared to the cost of living in England, but they are high when it comes to getting other people with inflated currencies to buy British goods. We also have to take some account of the fact that the standard of living has risen in England as compared with pre-war days and that workmen think they have a perfect right to more leisure, more comfort and more luxury. There are, then, at least three main causes for Britain's present worries—decreased world markets, high cost of British goods (due to currency rates and high wages), and the heavy internal taxation.

And the remedies lie mostly in the realm of politics. The settlement of the European peace problem will be all for the good because it will quicken trade in countries which have been "holding off"; and the approximating of the world's currency exchanges will do a lot to help British sellers. Britain's internal politics are of vital importance and it will largely rest with Labour, on the one hand and with Conservatism, on the other, either to bridge the gulf and tide over difficulties or, by "wholehog" conduct, precipitate a clash. The modest demands of employers will also have to be a little more evident. It is perhaps too late to cheapen the £ sterling, but our pride in seeing it high is a costly one. We, out in the Crown Colonies, cannot do very much in the way of direct assistance for those at Home, but inasmuch as our trade orders go to help, we ought to do everything possible to quicken the local trade. Let us keep that well in mind when thinking of the problem.

### The Changing East.

Among the many phrases concerning the East which have become hopelessly out of date is the one that describes the Orient as unchanging. It was coined in the days when travellers from the West, fresh from the march of events, found centuries-old conditions almost unaltered from the time of their inception. The tradition of kingship always had a strong hold in eastern countries, where vassalage has survived much longer than elsewhere, and where caste systems have operated to emphasise the contrast between the highly-placed and lowly. Yet one of the principal changes of the past quarter century has been the rise of a popular sentiment opposed to the ancient hierarchies and dynasties and the creation of republican forms of government based on the approved western lines. In the Near East the chief instance of this was the defection of

## SINGAPORE LETTER.

THE GOVERNORSHIP—BUDGET DEBATE  
—OPIUM POLICY—SHIPPING  
COLLISION.

(Our Own Correspondent.)

Singapore, Oct. 31.  
The most piquant item our newspapers have served up lately is a rumour, apparently from some semi-official source in London, that Sir Laurence Guillemard, who holds the dual position of Governor of the Straits Settlements and High Commissioner of the Federated Malay States, may only be with us a few months longer. We are informed that His Excellency returns "on an indefinitely extended leave to clear up various matters, after which he will notify Mr. Amery of his readiness to return home." The delicacy of this phraseology is amusing. Sir Laurence and his charming wife have made many friends during their hospitable regime at Government House, but His Excellency has never understood this country, and will doubtless be glad to say good-bye to its many varied problems. How the Voalition Government expected a man who had spent his life in the Inland Revenue Department, and who was then at an age when most men resign themselves to retirement, to govern strongly and confidently a country with the complex political system, mixed Asiatic population, and varied commercial and producing interests of British Malaya is beyond understanding. Some hard things have been said in the press of late, and here is one comment from a particularly outspoken quarter:—"London may be under the delusion that all it needs is Sir Laurence Guillemard. If it does we have merely to say heaven help its ignorance and heaven help Malaya, which must bear the consequences." Such strong language is deprecated by those who hold that the prestige of the office is just as important as that of the holder of it, but it is well that London should realise that Government House, Singapore, is not as it were, a living in the gift of the Home Government, to be bestowed as a reward for political or other service in England.

### An Annual Spate Of Oratory.

The debate on the Budget produced the usual spate of oratory on any and every subject from the unofficial members of the Legislative Council, who would have nothing to do with the Government's well-meant hint that they should confine themselves to the matter in hand. The estimates showed a deficit of seven million dollars, but no one seemed unduly worried about that. One member indeed bluntly said that the deficit was due to the ten per cent contribution from the Colony's revenue to the opium reserve fund, and he went on to say that as long as that deduction was made, so long would we be unable to balance the Budget. His conclusion was that the Government were keeping that supremely unpopular remedy, an income tax, up their sleeve. The Treasurer—who has crowned a distinguished career by dramatic but thoroughly sound legislation giving effect to the Imperial Government's anti-opium policy—replied that further taxation would have to be imposed, and he suggested the death duties as a fruitful source of revenue, but he repeated what he has already said, that with due care and a careful watch on the Colony's annual bill, it should be possible to do without an income tax for many years to come.

### Legislating for Posterity.

The legislation recently passed in the Straits Settlements must convince the most fanatical idealist America could possibly send to Geneva that the British Govern-

ment is sincerely co-operating in the world campaign for the suppression of opium smoking. And this legislation has been welcomed here, for it has long been on our conscience that between thirty and forty per cent off of our revenue is derived from the Chinese coolie's vice. The policy of the Government is quite clear, and, on the whole, has met with general approval, although the objections that have been raised, especially against setting aside ten per cent of the revenue every year for the opium reserve, are by no means without force. The sum of \$30,000,000 has been set aside from the Colony's reserves as the nucleus of an opium replacement reserve fund, and the Government estimate that if the period under the Geneva protocol begin to run against us twenty years from now, this fund, at the end of the fifteen years period, having been swelled by compound interest and the annual ten per cent contribution, will provide in interest roughly half the twelve millions which we derive from the opium revenue this year. The balance will presumably be obtained by an income tax, since any form of tariff would seriously affect the position of Singapore and Penang as transshipment ports. The argument that by laying aside this money we are legislating with undue generosity for posterity is, therefore, somewhat unconvincing, considering that we are taking away a large part of posterity's revenue, while handing on an ever-increasing annual expenditure. Any twinges of conscience we may have felt at the idea of presenting our descendants with this problem we have allayed by recalling that the matter will not arise at all until China is in a position to suppress poppy-growing, and moreover, it is quite possible that new and unexpected sources of revenue will be available in the future.

### DAY BY DAY.

FOND PRIDE OF DRESS IS SURE A VERY CURSE; ERE FANCY YOU CONSULT, CONSULT YOUR PURSE. —Franklin.

The opening rate of the dollar on demand to-day is 2s. 47/16d.

The only case of notifiable disease reported over the week-end was one Chinese occurrence of diphtheria.

His Excellency the Governor, has accepted the position of Honorary President of the Engineers and Shipbuilders of Hongkong.

A very striking and most effective "Poppy Day" display is to be seen in the windows of Messrs. Lane, Crawford's ladies' department in Pedder Street.

Fong Kue, 38, an itinerant hawk, committed suicide during the week-end at his home in Sung Hing Lane, by first cutting his throat with a chopper.

There was a farewell tiffin to Sir Claud Severn at the Hongkong Club to-day. Sir Claud will be given a reception at the Institution of Engineers and Shipbuilders at 5.30 p.m. on Thursday.

At a recent meeting of the Committee of the Macao Club, it was proposed by Mr. J. A. E. da Silva to raise funds for the Chinese who were rendered homeless by the recent fire which destroyed so many of the little houses that existed behind the ruins of St. Paul's Church, Macao.

A rather curious accident, causing some amusement to the passers-by, occurred in Pottinger Street this morning, two Army mules pulling a wagon suddenly shying and falling into a P.V.D. trench. After some difficulty, a European sapper succeeded in extricating the animals.

At the annual meeting of the Hongkong Realty and Trust Co., Ltd., the report and accounts were adopted. Other business was the re-election of Mr. E. M. Raymond and Mr. Fung Tat-hang as directors, and the re-appointment of Messrs. Linstead and Davis as auditors at a fee of \$500.

as a matter of fact it is extensive, both ships being badly crushed internally, apart from damaged plates, and the Marella will cost something like \$80,000 to be made ready for sea again. We have just had an enquiry into another shipping disaster, the loss of the Leeds City, which foundered in forty minutes off the Borean Islands in the Java Sea. The finding of the court—that the ship struck an uncharted obstacle—would scarcely have been possible in some parts of the world, where shipping follows ancient and well-beaten paths, but counsel for the captain and deck officers in this case was able to point his submissions very effectively by recalling that recently a concealed rock pinnacle was discovered at the very entrance to the docks at Singapore. If that obstacle could have remained undiscovered all these years, during which it must have been passed by literally thousands of ships, how much more likely was it to happen in the waters of the Java Sea? In the meantime there is the uncomfortable thought that the rock on which the Leeds City was lost is still unknown, a hidden peril in the path of all vessels making for the Macassar Straits from Samarang.

### The Shipping Collision.

The collision between the Marella and the Conus was the most sensational shipping accident we have had here for several years. It occurred in broad daylight, in fine weather, and in open sea, but within sight of Singapore's waterfront. It seems peculiarly unlucky that Captain Mortimer should bring the Marella safely over one of the most difficult runs in the world—the past the Barrier Reef, and through the island-studded seas of the Malay Archipelago—and meet with this mishap practically in the Singapore roads. That the collision occurred where it did, however, was fortunate, for the Marella would have been in a serious position had it happened far out at sea. Her plates and structure from the waterline to the keel were buckled and crushed, and the inrush of water immediately stopped the main engines. The ship was in actual danger of sinking in fifty-four feet of water, and but for very gallant work by her engineers she might have done. With fifteen feet of hot water in the engine-room, and the air rendered unbearably by the exhaust steam, and, moreover, with no light other than an electric torch, they managed to plug the broken valves, and, with the aid of a pump on the salvage tug, get the better of the leaks. Had the water remained above the level of the pumps for any time they would certainly have been put out of action, and the situation would have been desperate.

### Surly Bedfellows.

The King's Dock at present presents the interesting spectacle of both these ships making the best of each other's company inside it. To the casual observer the damage does not appear to be serious, but

## PLAY AND PLAYERS.

## THE CLUB IN HAPPY VEIN.

By "Wanderer."

The only real surprise in Hongkong League football on Saturday was the defeat of the University by St. Joseph's Reserves. The Club succeeded where Kowloon failed and scored an excellent win over South China, while the East Surreys awakened their hitherto latent scoring ability and ran up seven goals against the Tamar without reply. The Police had the better of the game with the Recs. but went down once again.

The Surreys Reserves with six and St. Joseph's Boarders with eight were top scorers in the "A" and "B" sections of the second division.

## SOUTH CHINA'S FORWARD WEAKNESS.

The Club thoroughly deserved their third and most pronounced victory of the season and yet on the general run of the play there was little to choose between the two teams. It sounds paradoxical but the reason South China failed to respond to the first half goals of the Club was that their forward line played well enough in approaching to within range of Rodger and then did little or nothing to test his ability.

Howard who should be credited with both Club goals played a remarkably virile game; indeed the improvement all round was most noticeable. It was in teamwork that the Club excelled; Mair, Stewart and Watson gave the vanguard ample support at the same time running few risks of a Chinese breakaway, and it was long accurate sweeping passes by Howard and Forsyth which made the attack such a dangerous factor in the opening half.

Within three minutes of the commencement the Club were a goal up under peculiar circumstances. Howard trapped the ball some thirty yards out and bursting through put in a terrific left foot drive which struck the underside of the crossbar and rebounded, according to a credible informant on the spot, into goal. The point was allowed to pass and a scramble ensued in the goalmouth. Mr. Smith eventually blowing up for a goal after the ball had been cleared. It appeared from the stand that the ball had been in and out of the net several times.

The Club forwards were in happy vein after this goal and they displayed life in attack such has not been seen from them for a good many games. They began in workmanlike fashion and moved with a delightful freedom. The shooting too was good and Lau had plenty to do. Near the interval Chan So miskicked a backward pass and Howard, who had made a point of harassing the backs, fastened on the ball and running in easily defeated Lau from fifteen yards.

Up to the interval the Chinese were made to appear a very moderate lot but they improved almost beyond measure in the second half and had they only had a shooting forward the Club defence would have had many more anxious moments than were actually experienced. Rodger's responsibility was however never burdening, in fact he rarely had a shot of merit to save.

The game grew rough towards the finish and the whole blame for this was centred round Lau Hing-cheung, whose gallery play occasioned a little charging in his direction, attention which he resented. The ill-feeling spread to other members of the side and there were many unfortunate incidents though too often as cannot be helped sometimes, it was the retaliator who received Mr. Smith's caution rather than the original offender.

The Club as a team did splendidly. The forwards individually and collectively showed vast improve-

ment, the outstanding player being Howard, who surprised by his energy and judgment. His shooting and distribution of the ball require little improvement and he displayed due appreciation of the change in the offside rule. Both Forsyth and Johnstone worked hard with a good idea of construction and the wingers centred well on occasion. Watson was the outstanding half, though Jimmy Stewart worked like a Trojan and had Wong Pak-cheung and Suen Kam-shun well in subjection. Both Summers and Bishop kicked and tackled with effect, though Summers rather hesitant to go in, without making any serious mistake. Rodger brought off a good save in the first half but had little else to do in the way of scoring shots though he was kept constantly busy in running out and anticipating dangerous moves.

Lau spoilt an otherwise good display by his gallery play and Ng Kam-chuen and Chan So were not nearly so safe under pressure as is usual with them. The half-backs played hard to stem the tide while the forwards were very weak in the goal area.

## SURREYS SCORE SEVEN.

Seven clear goals did not exaggerate the superiority of the East Surreys over the Tamar, who were outplayed in all departments except goal, where Wavish put up a wonderful display to prevent the Surreys from running into double figures.

The Surreys opened the score within six minutes from a free given against Wavish for carrying. Butler passed to Eaton who scored easily. So pronounced was the difference between the eleven that the Tamar crossed the halfway on few occasions, though only one goal was added before the interval. Charlesworth scored with a capital shot from close to the touchline. The Surreys would have had further points had their shooting been better.

The game assumed much the same aspect on resumption though goals came with greater frequency. Rarely has Mackleworth been seen to better advantage and he was consistently plied with passes by his inside man. His centres were always fraught with danger and it was off them chiefly that Eaton claimed three goals and Butler two. Eaton it was who took the eye most and undoubtedly he played one of his best games. Meanwhile Hamerstone had struck the upright on no fewer than three occasions and had put several other good chances over the bar.

Generally speaking the game was one between the Surreys forwards and Wavish and the goalkeeper came well out of the ordeal. The backs resisted stubbornly for some time but later went to pieces.

## POLICE DOWN AGAIN.

But for the fact that they kept the ball too close and then when opportunities did occur, shot recklessly, the Police would have held at least one goal lead at the interval of their game with the Recreio. As was however they were one goal in arrears and they had only themselves to blame for the unfortunate state of affairs.

The Recreio defence played exceedingly well but the Police had hosts of chances and allowed all to go begging. Their shooting was hopelessly wild and when the Recreio got down and scored through Gysano it seemed then, before half-time, that the Police were again to lose.

The Recreio as a matter of fact showed an improvement on their first half form but failed again to find the net.

It was only forward where the Police failed; their defence was good enough, Wynne and Byron covering Swan effectively and the half-backs holding their own with a nippy forward line.

## THE SECOND DIVISION.

The three "A" Section matches ended as anticipated, though the Club Reserves did well to hold the South China "A" team to two goals. In the "B" section, the University who two previous games had produced fourteen goals went down to St. Joseph's Reserves. Moslem "A" registered their first win.

## AQUATICS.

ST. JOHN AMBULANCE  
BRIGADE SPORTS.

At the annual aquatic sports in connection with the St. John Ambulance, held in the V.R.C. on Sunday morning, there was a good attendance of members and friends, all four Divisions of the Brigade being represented. The Kowloon, Indian and Y. M. C. A. Divisions competed for the "Canter Shield," awarded to the Division obtaining most points. Chiefly owing to the outstanding excellence of R. Witchell, the Kowloon contingent carried off the trophy. As will be seen from the results appearing on another page, the Division from the mainland took first place in every open event, including the team race, which was the cause of great excitement. J. Hoosen, swimming second for the Indians, took the lead and looked like making the event a sure thing for his side; but Witchell, going in last for Kowloon, had no difficulty in making up the leeway of half a length and won easily.

In the Life Saving Race for the Ho Tung Challenge Cup, a dummy was thrown into the pond while the competitors were in the gymnasium; and each of the latter, when a whistle was blown, had to rush to the bath, dive in, retrieve the "body" and swim with it to the steps. The time was taken from the blowing of the whistle till the steps were reached. Here R. Witchell had an easy win in 22 4/5 secs. In the handicap events, the allowances were so well judged that excellent races were witnessed.

At the conclusion of the programme Mr. E. Ralphs, Assistant Commissioner for the Hongkong and China District, thanked all those who had helped to make the meeting a success, and made special reference to the yeoman service done by Mr. Witchell, the genial Secretary of the V. R. C. Next year, the sports would be held earlier and he hoped more members would train and compete. He congratulated the Kowloon Division on their success and announced that the prizes won, and also first-aid certificates gained during the year would be presented at an early date. It was also announced that a football match would take place on Armistice Day between the Kowloon and Indian Divisions.

## GOLF MATCH.

In the singles, the Chartered Bank led by 5 1/2 points to 3 1/2, but in the fourball foursomes the Wayfoong men won three out of four games, their points score being 6 to 2 1/2.

## RENT CLAIM.

## A YAUMATI CASE.

In the Summary Court, before Mr. Justice Wood this morning, consideration was given to a claim for four months' rent in respect of a house at 272, South Temple Street, Yaumati, being three months' rent in arrears, and one month's rent in lieu of notice.

The case was that a Chinese sub-let rooms in the house to another man, and then gave up his tenancy, so that, automatically, the sub-tenant became the principal tenant. The question was as to who was the principal tenant.

After hearing the evidence, judgment was given for the plaintiff with costs.

**SWIMMING.****ST. JOHN'S AMBULANCE BRIGADE'S SPORTS.****Kowloon Division's Success.**

By kind permission of the Committee of the Victoria Recreation Club, the St. John's Ambulance Brigade held its annual aquatic sports yesterday morning. There was a large number of friends present and the various races were contested with great enthusiasm. At the conclusion of the sports, the Commissioner, Mr. E. Dalphs, said that after a cessation of some years the Brigade were able, thanks to the Committee of the V. R. C., to hold the sports this year.

The following were the results:

Brigade Team Race (Sir Ellis Kadoorie Cup)—1, Kowloon Division; 2, the Indian Division.

The winners were represented by P. Angus, A. Mycock, J. Hirst and R. G. Wicheil.

Life Saving Race (Sir Robert Ho Tung Challenge Cup)—1, R. G. Wicheil; 2, A. M. Wahab.

100 Yards handicap Class A (Nam Young Cup)—1, M. K. Minu; 2, J. Hoosen.

50 Yards handicap Class B (Chan Chan Nam Cup)—1, J. S. Currie; 2, E. Moses.

100 yards (the Ho Bros. Challenge Cup)—1, R. G. Wicheil, 2, F. Angus.

The Charter Shield (Awarded to the section gaining the most points)—1, Kowloon Division.

**ROWING.****A TRIAL EVENT.**

In connection with the forthcoming Opening Cruise at the Yacht Club, some trial rowing races took place on Saturday afternoon subsequent to the sailing races. Although the wind had died down considerably by the time the fours went out, the going was bad enough and the crews got a pretty good soaking.

The same two crews rowed two races of half a mile, with the exception that strokes were changed after the first event. In the first boat the crew originally was Groves (bow), Andrews, Rasmusson, Jack (str.), Lanfesty (cox), and in the second boat Easterbrook (bow), Smith, Jones, Dreyer (str.) and Logan (cox).

In the first race Jack varied the stroke from 31 to 34, while Dreyer kept a steady 32, the first boat winning by about 3 seconds. With Dreyer stroking, the first boat also won the second race, the time between the boats being 7 seconds.

The races were a good test under rather trying conditions and these responsible for choosing the Yacht Club crew to meet the Navy next Saturday are confident that they can select a crew which will give the Navy a remarkably good run.

## YACHTING.

## RACES IN HEAVY WEATHER.

Saturday proved a heavy day and boats with weatherly qualities showed up to advantage in the second of the series of R. H. K. Y. C. championship races. In the morning the wind force was between four and five and at the time the race started it was force four, about 20 miles an hour. It gradually slackened as the afternoon wore on, but was probably not less than force three at the end of the race.

The course was from the Club up to Quarry Bay, thence to Channel Rocks, Club line, Channel Rocks, Kowloon Rock and Club line—a distance of 8.33 miles. The beat up to Quarry Bay was a heavy one and provided good sport. Apart from the beat back to Channel Rocks from the Club, the rest of the course was with a fair wind.

In the Handicap class Diana revelled in her own weather and finished first of her class and scored her first win of the new season. She was closely followed in by Rolla, who failed to save her time on Colleen and had to take third place. Dorothea was not quite in trim and, getting out of hand through what appeared to be a rudder deflection at the Club mark line, nearly rammed Ailsa and gave up.

## Heyward Hays.

Gladys of the Heyward Hays sailed a good race. She was making up time all the way round and eventually beat Sealark by exactly 10 seconds. The finish of the Heyward Hays was remarkably fine and showed how well they sail as a one design class off the scratch mark. Of the six boats sailing, five finished within 40 seconds. Sealark returned to her form of yesterday and took second place, with Adanaq a consistent third.

Gael sailed with a reef down in a wind which admirably suited her and it was bad luck in meeting an outgoing steamer and having the worst of the argument which probably caused her to take second place to Joan by 23 seconds on corrected time. Thecla scored third, while Meesing, last week's winner, found the weather too strong for her liking. None of the One Designs in this mixed class found the weather suitable to them and failed to get a place in the first three.

A protest was entered soon after the race and at a subsequent sailing committee meeting Daphne was disqualified under the port and starboard rule.

The results follow:  
Owing to protests pending, only points of the Handicap class can be given. They are, Diana 13, Falcon 12, Colleen 10, Rolla 7, La Linda 6, Dorothea 6, Argulla 3.

## WATER POLO.

## FINAL MATCH TO BE PLAYED TO-DAY.

There should be a large attendance at the final match in the Water Polo League, which is to be played off this evening between the V. R. C. and the Kowloon "A" teams, both of whom are at the top of the League table with an equal number of points. The match will undoubtedly be interesting, as at their previous meeting these two teams played a drawn game of one goal each, neither team having suffered defeat in the League. A nominal charge will be made for admission.

The game is timed to commence at 5.30 p.m. sharp.

The winners will be presented with the Shield and medals at a smoking concert which will take place on Friday evening.

## FRANCE'S FINANCES.

Paris, November 7.

The Council of Ministers has adopted M. Painleve's financial plan, which the Government proposes to rush through parliament by 12th inst., the reason being that the Treasury Account with the Bank of France is nearly overdrawn, and a new agreement is necessary authorising advances of several milliards of francs to meet urgent Treasury liabilities.

The Sinking Fund contemplated by M. Painleve's financial proposals will be maintained by means of a Poll Tax on all French citizens over 21 years of age, of twenty francs a head, without exemptions; also an extraordinary levy on personal and real estate, with the option of spreading payments over a period of years. Those paying within a year will benefit by a reduction of 25 per cent and those paying within three years by 15 per cent. It is expected that the Sinking Fund will secure redemption of 65,000,000,000 francs of the Internal Debt within fourteen years.

In M. Painleve's financial plan, it is estimated that the Poll Tax will yield 200,000,000 francs, annually and the extraordinary tax on income and property, 5,755,000,000 francs annually.

The resources of the Sinking Fund also include an annual contribution of 2,630,000,000 from the Budget and proceedings from the short term loan service. The short term debt may for the present be met by the Banque de France up to 8,585,000,000 francs by the issue of extra banknotes. The Bill also authorises the Banque to increase its advances to the Treasury from the present 32,000,000,000 to 34,500,000,000 francs.

The 1926 Budget will show a total expenditure of approximately 33 milliards and revenue of 33½ milliards, the latter not including the proceeds of the Daves Plan which will be earmarked for Inter-Allied debts and restoration of the devastated regions.

The proposed taxes on incomes and property consist of a sum equal to one and a half times the net annual income on house property, fifty per cent on the net annual income on business profits, and fifteen per cent per annum on the net income for fourteen years on French and foreign securities, without exempting government stock which at the present time is taxfree. Also a special graduated annual tax of between three and five per cent on salaries and pensions exceeding 50,000 francs, eight per cent on a value above 50,000 francs on unproductive property such as furniture, jewels and works of art which is applicable to everyone habitually a resident of France.

The duration of the short term loan is not to exceed fifteen years. It may carry a guarantee against loss on exchange, or be a lottery loan.

The Sinking Fund administrators number fifteen and include the Governor of the Banque de France, President of the Court of Cassation, commercial and banking representatives, senators and deputies.

On behalf of the Left majority of the Finance Committee, M. Malvy and M. Lamoureux submitted criticisms and proposals to M. Painleve, who expressed willingness to accept amendments, but refused to agree to total transformation of the proposals or consider the principles which the delegates submitted.—*Reuter*.
